In addition, many introductions to Duke University Press humanities and social sciences journal issues and books are available for free at read.dukeupress.edu.
Libraries can support our open-access initiatives in several ways and help to keep this valuable content available to all.

**Subscribe to e-Duke Journals**
Revenue from our institutional collection subscriptions partially supports the open-access journals included in the collection.

**Give directly**
Some Duke University Press publications receive direct contributions from libraries. Libraries can support *Demography* specifically with a direct annual contribution. For more information, visit [dukeupress.edu/demography-open-access](dukeupress.edu/demography-open-access).

*Environmental Humanities* is included in the LYRASIS Open Access Community Investment Program, a partnership that includes Transitioning Society Publications to Open Access (TSPOA). More information is available at [lyrasis.org/content/Pages/oacip.aspx](lyrasis.org/content/Pages/oacip.aspx).

**Support our partners**
Subscribing to collections or individual titles on Project Euclid helps sustain the other 80% of content on the platform that is open access. Contributing to Knowledge Unlatched, *TOME*, and other OA models makes these models sustainable for DU Press to make content open access.
